

EDUCATION AND TRAINING FOR CERTIFICATION

□ **Work Experience:**

- 5 years of general, relevant work experience is required for all levels unless the applicant holds a degree or near degree. In this case, the experience requirement is lowered to 4 years.
- Relevant work experience is considered to be technical, managerial or professional positions that require use of judgment, problem solving, and communication with management, employees, customers and stakeholders.

□ **Technical Work Experience: Quality or Environmental**

- Quality or environmental work experience is also required, where quality/environmental and quality/environmental issues formed the major part of the job. (*Internal Auditor levels = 1 year experience; All other levels = 2 yrs experience*).
- Such experience must have provided the applicant with the practical knowledge necessary to audit quality or environmental management systems effectively and may be included as part of the 4 or 5 year general work experience.
